Country Kitchen SweetArt Dusting Powder Change

Due to popular demand, we have added a fantastic line of dusting colors that are now FDA approved!

CK Products Dusting Powders
We carry more than 30 colors of non-toxic, shimmery finish dusts. Two of them are FDA approved, the rest are non-toxic, but not food grade. We still carry many of the shimmery and luster colors, but all of their numbers have changed and the colors may vary slightly from the previous colors. See attached PDF for a cross reference with new and old numbers. Some of the deeper colors, such as the reds, are more vibrant than the reds from SugarArt.

SugarArt Dusting Powders
We love the gorgeous colors of SugarArt petal dusts. We are carrying 45 FDA approved dusts with a matte finish (Dusts with a TSA-EC prefix) and over 50 FDA approved dusts with a shimmery or metallic finish (Dusts with a TSA-SP prefix). They go on smooth and are very vibrant. The jars are 2.5, so there is a bit more dust in each jar than the CK Brand. The shimmery dusts are beautiful and give a nice sparkle or metallic finish.

Both brands can be brushed on dry, or turned into a paint using grain alcohol.

Dusts highlighted in yellow are FDA approved
